No8 DISTILLERY ŌTEPOTI | DUNEDIN

www.no8distillery.com

Here, classic distilling meets modern creativity—crafting unique gins, liqueurs, rum, and absinthe with native plants and herbs foraged from Dunedin's rich landscape.

Start our journey with a beautiful Franken-machine named "Therese" (Julien's Grand mother), now using also "Jackie" a 400L modern still designed for Rum and clear spirits.

In 2016, Julien introduced our first creation—Horopito Gin—crafted with eight key ingredients.

It quickly became a local favorite and a defining milestone for No8 Distillery.

Since then, No8 Distillery has been crafting innovative spirits, foraging native plants in Otago, blending its own unique approach with cherished French family recipes. Fourth-generation distiller Julien continues his family's legacy from Normandy, where rum, calvados, brandy, and cider have long been a way of life.

With over 45 international medals—including World's Best Gin 2022 and USA Absinthe of the year 2023—his award-winning spirits cater to every mood, from Rum and Absinthe to Gin and Liqueurs.
